

Medicine Grand Rounds

Friday September 6 @ 12:00 – 1:00 pm

Dr. Ross Prager

Dr. Ross Prager is an intensivist at LHSC with an interest in critical care ultrasound and hemodynamic phenotyping of critically ill patients. He is the PI of an international study investigating venous congestion in septic shock using Doppler (Andromeda-VEXUS). He is also passionate about education, knowledge translation, and leveraging social media as a platform to amplify dissemination and uptake of new research.

Venous congestion: a commonly missed cause of AKI hiding in plain sight.

Objectives:

1. Understand the pathophysiology of venous congestion.
2. Understand different techniques to quantify venous congestion.
3. Understand the causes and contributors of venous congestion.
4. Understand how venous congestion measurement can be used to guide treatment of acute kidney injury.

University Hospital: Auditorium B

Victoria Hospital: Sumner Auditorium
