

PARTICIPANTS NEEDED FOR RESEARCH ON DIABETES CARE

Are you a Health Care Professional with patients who had or are having care from the **Primary Care Diabetes Support Program (PCDSP)** at St. Joseph's Health Centre for the management of diabetes between April 1, 2010 and March 31, 2023?

Researchers at the Centre for Studies in Family Medicine at Western University are interested in talking to you.

If you are interested and agree to take part, you will be asked to participate in an interview to share your experiences with the PCDSP program.

Your participation would involve one interview (approximately 30 minutes) either by phone or in person at the Centre for Studies in Family Medicine.

You may be compensated for your time.

For more information about this study, or to volunteer for this study, please contact:

Gillian Young, PhD student
