

Department of Pathology and Laboratory Medicine

DR. ROBERT ZHONG SEMINAR

On the collusion of tau with TDP-43: understanding the impact of pathological tau metabolism on the course of ALS

Michael Strong, MD, FRCP(C), FANN, FCAHS

Professor,
Neurology,
Schulich School of Medicine & Dentistry,
Western University

Thursday, December 12, 2024

12:00 p.m. – 1:00 p.m.

University Hospital, Auditorium A

Learning Objectives:

1. The attendee will have gained insights into the spectrum of frontotemporal dysfunction in ALS, traditionally considered to be a pure motor neuron disorder.
2. They will also understand the role of pathological tau phosphorylation in its genesis and how the co-occurrence of both tau and TDP-43 pathology synergize to produce a more rapidly progress disease phenotype
